

CMFI Email Alert - CMFI White Paper
Wednesday, April 1, 2009

Earlier this week, the Coalition of Mutual Fund Investors (CMFI) released a White Paper on the problems presented by hidden, third-party mutual fund accounts.

CMFI's White Paper analyzes the risks of increased arbitrage payments in hidden accounts, and suggests several solutions to bring full transparency to these accounts, in order to protect the interests of individual investors.

Click on this link to our Home Page to review the CMFI White Paper:
